VistaGuards™ by Raine – Protect Your Critical Medical Tools and Instruments

DURABLE AND EFFECTIVE MATERIAL

- Clear visibility with glass-like transparency.
- Developed for lasting performance with stable strength and flexibility.
- Compatible with various EtO and gamma sterilization cycles.¹

ENHANCED DESIGN

- Engineered with precision to optimize ventilation while ensuring protection.
- Anti-roll design with multiple patents pending.
- Endless product applications and opportunities.

SUSTAINABLY FOCUSED

- PVC and Silicone free. Our products are made from TPE, a human and environmentally friendly alternative that reduces the use of harmful materials in healthcare settings.
- Circular design allows for closed loop recycling.

1. Material has been tested for various sterilization methods. Final validation remains the responsibility of the end user.

Delivering High-Quality and Cost Effective Solutions for Endless Applications

raine

**VistaGuard™ — Clarity You Can Trust.
Protection You Can Count On.**

With VistaGuard™, we don't just cover instruments, we preserve precision, protect integrity, and empower performance of your tools.
